

	<p style="text-align: center;">PROCEDURE Pricing policy</p>	<p>Documented information</p> <p>ID MSG A46</p>
-----------------------------------------------------------------------------------	-------------------------------------------------------------------------------	------------------------------------------------------------

ENAVE S.r.l. wants to show its independence, transparency and consistency by making its pricing policy available, in accordance with the rules it has set itself in line with the applicable requirements based on international standards.

ENAVE S.r.l.'s Pricing Policy provides clear information on the services it provides with ACCREDIA accreditation, distinguishing them from other services that are not provided with the same accreditation.

The types of certification and services with Accredia accreditation are listed below.

PRODUCT CERTIFICATION

With ACCREDIA accreditation, no. 02298 PRD, in accordance with UNI CEI EN ISO/IEC 17065:2012:

1. Machinery Directive 2006/42/EC

EC type examination as per Annex IX (Module B)

2. Noise Directive 2000/14/EC

Annex VI – internal production control procedure with assessment of technical documentation and periodic checks

Annex VII – procedure for verification of the single specimen

Costs are defined, according to the ENAVE S.r.l. price list, based on the type of product, the type of certification, the number of processes involved, the applicable rate, and the applicable reduction.

To find out the costs of the services offered, a specific quote must be requested to ENAVE S.r.l. Sales Department, providing the necessary information by completing the Information Questionnaires and Certification Applications/Requests.

The expenses incurred are invoiced as follows:

- Motorway expenses: at cost; Car mileage: corresponding ACI car tariff per kilometre travelled
- Food, accommodation, train, ship, aeroplane: at cost
- Current VAT will be added to the costs.
